MARKS GRADE

 "Marks Grade" module help you to define grade for marks.

As per CCE (Continuous and Comprehensive Evaluation) there a pattern used to display grade in place of marks. "**Marks Grade**" helps to assign **grades** in place of **marks**.

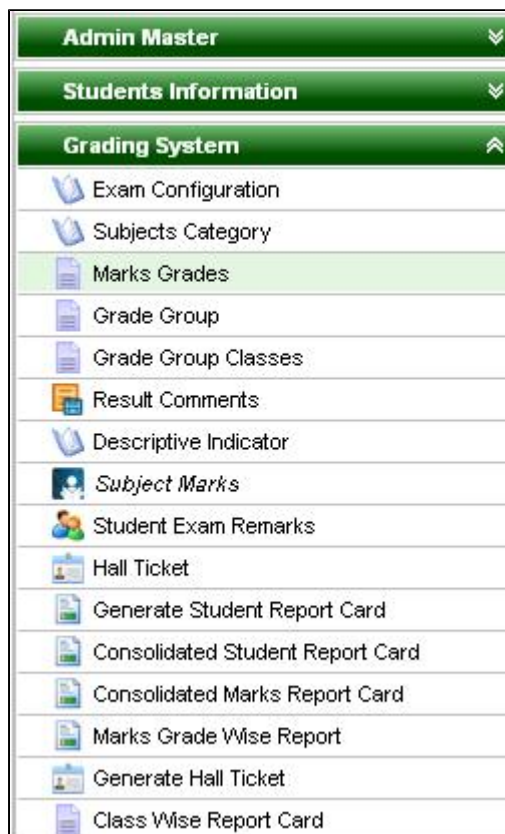

Example;-

Percentage of Marks	Grade
90-100	A+
70-89	A
50-69	B+
30-49	B
0-29	C
Above 70	A+
Below 70	A

For example, if the SA1 conducted for a maximum of 100 marks and the student has scored 80 then percentage of marks is 80 % and corresponding grade would be "A". If FA1 is conducted for maximum of 25 marks then percentage of marks is 80% and subject grade is "A".

Step to follow;-

Step 1 :- Go to **Grading System**, Click on **Marks Grade** menu.

Step 2:- Once you click on **Marks Grades** menu in the **Grading System**, **Marks Grades Master** will be opened.

Step 3 :- Once you click on **Add( Add)** button, **Add Edit Marks Grade Details** will be shown as below;-

The dialog box titled "Add / Edit Marks Grade Details" contains a section "Enter Grade Details" with the following fields:

- Grade Name*: A text input field.
- Weight: A text input field.
- Description: A text area with a small grid icon at the bottom right.
- Consider for only total grade: A checkbox.

At the bottom of the dialog box are two buttons: "Add" and "Close".

Step 4 :- Enter the **GRADE** name and its **weight**. Here **weight** is nothing but the marks range for the grade.

Enter **description** for the grade.

It will show like below dialog box;-

The dialog box titled "Add / Edit Marks Grade Details" is now populated with the following data:

- Grade Name*: A+
- Weight: 90
- Description: 90-100
- Consider for only total grade: ☒

The "Add" and "Close" buttons remain at the bottom.

Step 5:- Click on **Add( Add)** button.

After Adding all grades it will show like below dialog box;-
